User Galleries

Contributed by Armin H.
Wednesday, 11 January 2006

As often desired, e.g. in this thread, and as it was at our "old home" Earl Cadfael's, each user has now his private Gallery. There is no change for you when uploading images into our Gallery, and you can still browse it by category of the miniatures.

Instead I programmed a PlugIn for the user profiles. To see a User's images, just click the Gallery-Tab at his profile. You are being redirected directly there by using the linked name at each picture in the Gallery.
